### WALTER WELLMAN DECIDES TAFT IS CERTAIN WINNER

Bryan Landslide in West and  
Pacific Falls Utterly to  
Materialize.

Fight is in New York, With  
Taft Prime Favorite.

WISCONSIN LOST TO JOHNSON

Walter Wellman is the one prominent political writer who has been prophesying Democratic success in the national election. He is the only one in the field who has classified Ohio and Indiana as Democratic. The Memphis Commercial Appeal and other papers have been accepting his reports, somewhat garbled, but they did not publish his letter of Monday morning to the Record-Herald.

"Taft is still ahead in the presidential race, and his election is probable, notwithstanding heavy Democratic gains."

"The battle for the presidency has really improved down to this. Whoever carries New York will almost certainly win the great prize."

"There is a possibility that Taft might win without New York, but it is a remote chance, for it is generally conceded that if New York should go over to Bryan that will indicate a movement strong enough to sweep other states along in the current."

"It now seems clear that, barring surprises in the west, not now really looked for by the best informed, Bryan must carry New York to save himself. Without New York he is almost certainly beaten."

"The latest and most trustworthy information I have from New York—information from dependable sources—is to the effect that the state is well-nigh for Taft. One strong reason for this I shall give in a moment."

"Thus it is obvious that by the most critical and cold-blooded view of the field Taft must be regarded as holding a tremendous advantage, despite his Republican luck in states like Ohio and Indiana, and this advantage on the whole situation justifies odds of 2 to 1 in his favor. With New York, Taft can win without both Ohio and Indiana."

"The much-talked-of Bryan landslide in the agricultural west, in the mountain states and on the Pacific coast, is not a reality. It is true Bryan is making heavy gains in all this territory, so far as the popular vote is concerned. But it does not run deep enough to swell general revolution. The Republican pluralities as a whole will be very much reduced—in some states almost to the point of disappearance—but Bryan's actual gain of electoral votes will be very small indeed—not enough, on the present alignment of the whole country, to have any effect upon the result. The basic facts are that the farmer is too prosperous to join a political revolution, and save in a few small mountain states there are not enough of the labor vote to give Bryan the victory. West of Chicago there will be heavy losses of Republican pluralities, but the loss of electoral votes will be, relatively speaking, negligible amounts."

"The hot and heavy fighting in this campaign has shifted to the industrial states east of Chicago, to the states where the labor vote is relatively large, to states where the local conditions are abnormal—and most of them working against the Republicans—to the three great states of New York, Ohio and Indiana. Two of these are the 'pivot' states of the past—states which have shifted from party to party in presidential years, and the other is a state which has often been upon the verge of doing so. In all three of these states—this derivative triumvirate—the personal liberty or supremacy legislation, question has been raised by Republican governors or Republican legislatures, with the result that the national Republican ticket is confronted by an incidental opposition which has no proper place in the campaign. Here the labor vote is heavy, and here also, particularly in Ohio and Indiana, other factors are working against the Republicans. It now appears that in New York, the greatest of the trio, the Republican leaders have taken advantage of peculiar local circumstances to turn the unfavorable late salvation. Ohio is desperate fighting ground, with the chances, in my opinion, in Bryan's favor. Indiana seems hopelessly lost to Taft. But if New York stands Taft can easily win without Ohio and Indiana."

His Prediction.  
"From information reaching me in  
(Continued on Page Four.)

### HEARST THIEVES.

New York, Oct. 20.—Under the title "Mrs. Hearst's Thieves," Collier's Weekly prints a story, purporting to be "how Hearst secured the Archibald letters he read in the campaign. He says Willie Whitfield, a negro clerk in Archibald's office, and Charles Stamp, a messenger, stole the letters and sold photographs of copies to Hearst for \$12,000. It quotes Stamp as saying Hearst has not read the most sensational letters yet. "Wait until he reads Senator Penrose's and Senator Aldrich's letters," Stamp & Whitfield lost \$12,000 running a saloon and gambling house.

### WIND LIFTS CAR OFF TRACK AND 6 MEN ARE KILLED

Lone Tree, Wyoming, Oct. 20.—Six men were killed and 39 hurt in the most peculiar wreck recorded. It was due to a gale. The storm lifted a moving caboose, containing the men, from the track and dropped it off a 50 foot embankment.

Tenth Street Revolt.  
Services at Tenth Street church last night were well attended. The Rev. Mr. Jackson preached a strong sermon on "Come Unto Me All Ye That Labor and Are Heavy Laden and I Will Give You Rest," which produced a profound impression on his audience. Much interest is manifested in the meetings. Services again this evening at 7:30.

BED QUARIES EXHAUST  
DISTURBED SERVICES.  
Bed Quarries, charged with disturbing the baptizing at foot of Kentucky avenue Sunday evening by running his gasoline launch near the crowd several times, Quarries after showing that he could not see the minister and did not know services were in progress, made profuse apologies and was dismissed in police court.

### LET OFF EASY.

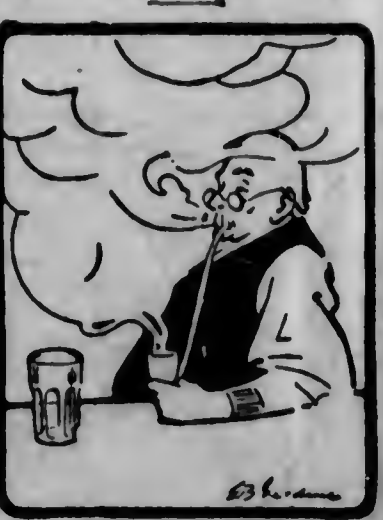

Chicken Thief Was Already Punished for Depredation.  
Summary Justice having already been dealt Charles Howard, a prisoner charged with chicken stealing, by the owner of the coop he visited, Judge Cross decided to be lenient with the prisoner, who had plainly made false statements under oath, and instead of issuing a warrant for false swearing, Howard was allowed to correct his statements after the evidence was all in. Howard was caught in Mike Iseman's chicken coop taking a couple of nice "yellow leg" fryers. Mr. Iseman used a club and the negro's black eyes and swollen face showed how well it was applied.

Other cases were: Drunk—Jim Scott and — Smith, \$1 each. Mischief—James Gray, \$20. Breach of peace—Dan Williams, \$50. Grand larceny—Ed Brown, dismissed. Gambling—Ed Itrane, \$20.

### More Battleships

Washington, Oct. 20.—Roosevelt is telling his visitors he intends to renew the fight at the coming congress for four battleships and more cruisers and torpedo boats. He believes the two battleship orders are insufficient. The navy board is backing him and will ask for four battleships and six if possible. Nevertheless will lead the senate fight and Holman in the house.

### WEATHER.

CLOUDY

Partly cloudy tonight, Wednesday increasing cloudiness. Highest temperature yesterday, 88; lowest today, 60.

### LUKE E. WRIGHT IN VIGOROUS SPEECH AGAINST BRYAN

New Yorkers are Enthusiastic  
Over Utterances of Tennessee Statesman.

Exposes Fallacies of Nebraskan  
Without Mercy.

SOUTH IS FOR PROTECTION

New York, Oct. 20.—Seldom has William Jennings Bryan been so severely arraigned during the present campaign as he was here last night by Gen. Luke E. Wright, secretary of war, who addressed a large mass meeting at Terrace Garden.

General Wright, who was introduced as a "Democrat having the honor of holding a cabinet position under a Republican administration," was greeted with enthusiastic cheering when he appeared on the platform, and his speech was repeatedly interrupted by cheers and applause.

He asserted that even the most friendly judge must admit that in the elevation of William Jennings Bryan the people are making a most "hazardous experiment," and predicted that with the election of Mr. Taft, all the great interests of the country will be assured of a square deal and will resume their "march of progress."

He then made some comparison of the material points of the platforms of the two great parties in those particular parts in which they are in conflict.

"The omission of the Democratic party platform to declare for a revenue tariff only," Secretary Wright said, "was not accidental, but was intended to present a plank upon which Democratic free traders and protectionists alike could stand."

Protection Where Feasible.  
The secretary said:  
"I say this because it is a matter of common notoriety that there is a very considerable, and I may say growing element in the Democratic party which favors reasonable protection to American industries. We know that there are many thousands who habitually vote the Democratic ticket, in the western states especially, who are for moderate protection, and it is not without reason that we know also that in the other great sections of the country, and especially in the south, where mining and manufacturing are being developed by leaps and bounds, and where sugar, wool, lumber and various other products receive the benefits of protection, Democrats are in favor of continuance in some form or other of the protective policy."

The speaker adverted to what he said were manifold objections to what he called Mr. Bryan's latest bid—the creation of a fund by tax upon national banks for the prompt payment of private depositors in these banks, with an arrangement for participation in the scheme by state banks. Mr. Bryan, he said, evidently regards with paternal fondness this latest offspring of his prolific brain and is inclined to make it what he calls a paramount issue. He added:

"Any such scheme would probably fail to work even if there were the utmost confidence in the solvency of the government. Whether such a confidence would exist in the event Mr. Bryan had the naming of the secretary of the treasury and if the man named were imbued with his theories of finance—a man such as Governor Haskell, of Oklahoma, for instance—is an interesting question and calls for reflection."

He followed this up with a bitter attack upon Bryan's financial proposals, and concluded by saying that he followed this up with a bitter attack upon Bryan's financial proposals, and concluded by saying that he followed this up with a bitter attack upon Bryan's financial proposals.

(Continued on Page Five.)

### ROBBERS BATTLE WITH CITIZENS TILL SAFE BLOWN

Merlin, Ill., Oct. 20.—Three robbers accomplished a daring robbery of a bank at Merlin. While one blew the safe seven times, his companions outside engaged in a hot fight with citizens who fired from their homes. The explosion aroused the whole village. The robbers stood their ground until their partner completed his task, and secured \$1,500. Then they all fled while the citizens pursued them. They escaped.

### Reduce Wood Pulp Tariff.

Duluth, Minn., Oct. 20.—As the result of a month's investigation the congressional committee investigating the paper industry, determined to recommend a revision of the tariff on Canadian pulp wood for print paper, chairman Mann announced the decision. The investigation showed that the supply of pulp wood of the north-west will soon be exhausted. Canada is the only hope. Unless we can arrange a duty to bring in the pulp wood cheaply, joint paper will become too expensive.

### President and Mikado Exchange Felicitations Over Reception to Fleet During Trip Around World

Plans and Execution of Entertainment at Yokohama Far Exceeds Anything Ever Before Undertaken.

Tokio, Oct. 20.—The reception to the fleet far exceeds anything hitherto. The Mikado received Admirals Sperry, Emory and Schroeder, and Ambassador O'Brien. Tomorrow he entertains all the officers at dinner. Sailors are having the time of their lives. The entertainment program is the most elaborate ever experienced.

### Express Good Wishes.

Washington, Oct. 20.—The text of the message between President Roosevelt and the Mikado during Admiral Sperry's audience is published. The president expressed his gratification over the reception of America's fleet and the wish that the ancient friendship of the two nations may continue. The Mikado's reply is similar. He thanked the United States for the opportunity of the Japanese to manifest their friendship. His constant aim is to weld the ties of amity into indissoluble bonds.

Tokio, Oct. 20.—The reception accorded the American Atlantic fleet by the government of Japan is considered by the American naval officers to be the heartiest and most perfectly carried out of the many receptions received by the fleet since it sailed from Hampton Roads. The men of the American and Japanese fleets are fraternizing everywhere in Tokyo and Yokohama.

There can be no doubt that the simultaneous visits of the American exposition commissioners, the Pacific coast business men and the Atlantic fleet are part of an organized plan of the Japanese to finally wipe out all misunderstanding between Japan and America and to give the visiting Americans as insight into the real attitude of Japan toward the United States.

At the dinner given by Ambassador O'Brien, Count Komura, minister of foreign affairs, was introduced and in the course of his remarks said the acceptance of the invitation to visit

### THREE THOUSAND CHINESE PERISH IN FRIGHTFUL TYPHOON OFF COAST AT AMOY

Work of Preparing For Reception of American Fleet is Going Ahead.

Amoy, China, Oct. 20.—Three thousand Chinese in the surrounding territory were killed in a typhoon and hundreds were injured.

In spite of the disaster the work of rehabilitating the city for the reception of the American fleet is going on. Admiral Sperry telegraphed his sympathy.

Two Recruits.  
Capt. William L. Reed, U. S. A., accepted from recruiting Sergt. C. A. Blake, Philip H. Smith, of Moulton, for the field artillery, and George L. Wright, of 316 Kentucky avenue, for the cavalry.

### APPLE JACK INSIDE AND OUT HAD THIS PRISONER.

Loaded on the outside as well as on the inside with apple brandy, Henry Ruff, colored, was arrested this morning by Patrolman Tobo Owe on a charge of bootlegging. It is alleged that Ruff broke a door to the grocery of George Denker, Twelfth and Harrison streets, and stole five gallons of apple brandy. When searched Patrolman Owe found a half gallon, besides several pint bottles in his pockets. Ruff is alleged to have thrown away several bottles of when spotted. He was locked up in the county jail.

Japan by the American fleet afforded Japan an opportunity to give additional evidence of the friendly sentiments always entertained by the Japanese towards America and America.

Early this morning Admiral Sperry was received at the imperial palace; on Wednesday morning the admiral and captains of the fleet will be the guests of the emperor at the palace. Admiral Sperry will convey the emperor a message from President Roosevelt.

### Farmers Bear the Market.

The cool frosty nights have given the farmers a chance to kill their young hives and hogs and bring the meat to town and sell to consumers by the quarter, and as a result hams are somewhat cheaper on the market. Nice fat beef was selling this morning at 4 cents a pound for fore quarters and the nice steak quarters at 6 cents. Pork was selling at 7 and 8 cents. Corn is selling at 50 cents a bushel, which is much cheaper than produce buyers thought the feedstuff would sell for at this time on account of the supposed unfavorable season for corn.

### MOOCHERS ARE HAPPY AS CANDIDATES COME IN.

The county candidates are coming to town, where they will close the campaign and the moochers are happy. On every corner there is a half dozen or more and when the candidate heads for a saloon to "buy" for some friend, he has to run the gauntlet of a score of thirsty voters. Even people, who are not candidates, are held up. One attorney from Murray, who is here under care of a specialist, was walking up Third street yesterday when one of the many stopped him and asked him what he was running for. "Nothing in the world," said the attorney.

"Well, I thought I would be for you if you wanted an office."

Some of the young men who are candidates are taken as "easy marks" and are already all in declaring they won't take a hand in another political game soon unless some rich uncle dies and leaves them a fortune.

### FATHER OF PADUCAH WOMAN MURDERED BY NIGHT RIDERS NEAR REELFOOT LAKE, TENN.

R. Z. Taylor Sees Companion Shot and  
While They Are Balloting His Life  
Away Jumps in Bayou.

VENGEANCE OF MASKED BAND ON TWO PROMINENT  
ATTORNEYS, WHO HAD PROSECUTED THEIR OUTLAWRY

Hellish Deed Perpetrated Under Protection of County  
Authorities of Tennessee and Kentucky.

BULLETIN 2:30 O'CLOCK.  
UNION CITY, TENN., OCT. 20.—CAPT. RANKIN WAS HANGED AND SHOT BY NIGHT RIDERS WHILE THEY WERE VOTING WHETHER OR NOT TO KILL MR. TAYLOR. HE JUMPED INTO A NEARBY BAYOU AND TRIED TO SWIM ACROSS. IT IS BELIEVED HE EITHER WAS SHOT IN THE BAYOU OR WAS DROWNED. THERE IS LITTLE HOPE OF HIS SAFETY. SEARCHERS FOUND RANKIN'S BODY, SHOT, WITH A ROPE AROUND HIS NECK.

NOTE.  
Members of Mr. Taylor's family in Paducah left on the 2:30 train for Trenton to join the remainder of the family at the old home.

Union City, Tenn., (Special).—R. Z. Taylor, a prominent attorney of Trenton, Tenn., and father of Mrs. W. B. Mills, and Mrs. Mark Anthony, and Mr. George M. Taylor, of Paducah, was murdered last night by night riders near Reelfoot Lake, Tenn., and his body hidden. The body of his companion, Capt. Quenton Rankin, was found early this morning. They were taken from the home of E. C. Ward at Walnut Log shortly after midnight by 70 or 80 masked men and conducted into the woods and shot. It is presumed. The messenger who sent the word, had to ride five miles to a telephone. The sheriff was notified and started out with a posse for a ride into the wildest country in West Tennessee. Two coffins were sent down by Attorney Caldwell, of this city. Relatives of the dead men were then notified.

Both the victims are attorneys for the West Tennessee Land company, which owns the ferry and fishing and hunting privileges around Reelfoot lake, and incurred the hostility of night riders by its monopoly. Last spring the hotel and other buildings of the company were burned by night riders, after sending repeated warnings. Recently, it is said E. C. Ward, manager of the properties, was whipped.

The attorneys represented the company in recent prosecutions for night riding. Yesterday they arrived at Reelfoot lake about 4 o'clock; but apparently news of their coming had preceded them. There were several people at Ward's when the night riders called. The night riders greatly outnumbered the people in the hotel, who were completely surprised. The two victims had no chance to defend themselves. They were taken into the woods and shot down without mercy.

The attorneys were out to see about some land on the Kentucky border, which is infested on both sides by night riders. Governor Wilson has troops to keep order on the Kentucky side, where the authorities of Hickman county are doing nothing.

It Was a Case of Revenge.  
The revenge on these attorneys is much like that practiced at Clarksville and Eddyville, Ky. At the latter place a grand juror who did not sign a report, suffered the loss of his hand at Adams, Tenn. Lacerations burned the factory of Mr. Sory, a prominent figure in the law and order movement, of Clarksville and a witness for the defense of Hunt and Gardner, who were tried and convicted for killing the night rider, Vaughn Bennett. The tobacco barn of Attorney Taylor, of the firm of Leach & Ponder, attorneys for the defense, also was destroyed.

Both Prominent Attorneys.  
Mr. Taylor was about 60 years old, and one of the most prominent attorneys in West Tennessee. He was the father of Mrs. W. B. Mills and Mrs. Mark Anthony and Mr. George M. Taylor, of Paducah, and Mr. Don Taylor, traveling salesman for the Siemens Hardware company of St. Louis. A son, married Miss Catherine Taylor, a daughter of Senator Robert Taylor last winter.

Captain Quenton Rankin, was captain of company F of the Tenth Tennessee in 1898. He was about 30 years old and married. He was a member of a prominent family.

### Deadly Cigarette

Frankfort, Ky., Oct. 20. (Special).—A boy set fire to brush with cigarettes in this county. The fire consumed 75 acres of forest and fencing. The village of Choatville is in danger.

Chicago Business Men Coming.  
Many members of the Chicago Commerce association are on a tour of the south, and Paducah merchants have been notified that the Chicago boatmen will pay Paducah a visit.

Prof. Check Resigns.  
To enter the business world, Prof. Frank Check, a teacher in the department of the Washington building has handed to the school board his resignation, effective as soon as possible. In the resignation the public schools will lose a good teacher, but Professor Check has received a flattering offer from Ernst Bros. Lumber company, and after January 1, will be northern salesman for the firm with headquarters in Chicago.

Lost \$21; Got Back \$7.50.  
For the alleged theft of \$23 from John Gant, colored, Rosie Stevens, a negro from Cairo, was arrested this morning by Patrolman Tobo Owens on a charge of robbery. It is alleged that the woman and Gant were together at Maxon Mills last night, and she slipped the roll of money from his pocket. For fear the Stevens woman would return to Cairo, the police department had several police scouring the north side beat, but patrolman Owens captured the woman and recovered \$7.50 of the money.

### Coal Men Sentenced

Madisonville, Ky., Oct. 20. (Special).—One year sentence for embezzlement, was given Inkerman Halley, Sr., manager of the Reelfoot coal mines. The court refused him a new trial. An appeal will be taken.

### Going to California.

Charles Starks and family, of Murray, are the guests of Mr. E. W. Wear and family, 320 Monroe street today. They are en route to Los Angeles, Cal., where they will make their home. Will Starks accompanied his brother to Paducah.

### Little Cheesey Boy Hurt.

The 10-year-old son of Mr. and Mrs. Lawrence Gleeves, of 236 North Seventh street, broke his arm Sunday afternoon while playing on a toboggan slide the kids had built. The break was a compound fracture of the left arm between the wrist and the elbow. One bone in the arm was broken in two places and the other both was broken and protruded through the flesh. Dr. B. B. Pulliam and Dr. Vernon Blythe were called to attend the injured lad.

### Chicago Market.

STANDARD OIL COMPANY (Incorporated)

## BULLS PUSHED OFF THEIR FEET

### Wheat Drops in Spite of Dronth Reports.

War Scare Passes Over And Assists Bears—Corn and Oats Also Lose During Week.

### BIG DECLINE IN PROVISIONS.

Chicago, Oct. 20.—The wheat market last week, robbed of the war cloud which had boosted the prices the previous week, gave a poor account of itself during the early part of the week. A large house which had been active on the bull side, but which had withdrawn its support temporarily, went to the rescue of the market later in the week, however. It bought enough to give the price an upward twist and net losses for the week were reduced. December closing 1 1/4 cents lower, May 1 1/4 cents lower and July 1/2 cent lower.

The continued drought in the southwest, in consequence of which the newly seeded crop is making a poor start on a reduced acreage, served as a bullish argument, as did also the marked falling off in receipts in the northwest, which, it was confidently predicted by some, would be permanent. Crop experts say that the situation in the southwest is not as bad as is claimed by some of the "pit agriculturalists" and that a good rain within a short time will in all probability give the crop a good start.

The bulls are certain that the falling off in the movement in the northwest will be permanent, claiming that the bulk of the crop in that country has been marketed under splendid conditions with which the farmers have been favored this season in the way of weather, transportation facilities and high prices. The claim is made that the farmers in this country have marketed a large portion of their crop and that stocks in country elevators still to come forward are comparatively light.

### Minneapolis Stocks Increase.

Minneapolis stocks show an increase for the week up to Friday of over 1,500,000 bushels, but a decrease of about 500,000 bushels is reported at Duluth. The claim that the bulk of the crop has been marketed would indicate that the movement is due to fall off sharply in the near future, but so long as the weather continues to make as good a showing as possible, provide shippers with all the cars required, it is more than likely the receipts will keep up on a fairly large scale. On the other hand, the milling demand shows a let-up owing to a corresponding falling off in the demand for flour, and the export demand for wheat is sluggish, even in the case of durum.

Hedging sales from the northwest have been more in evidence during the last week and have been a factor in the market. So far this season there has not been a great deal of hedging going on, but some of the local traders are afraid that this will become more noticeable, even with comparatively light receipts at the spring wheat centers. The outside trade is so light that any pressure of consequence from the buying of cash wheat would be quickly felt in this market. Local bulls were thoroughly disgusted with the course of prices Thursday and in spite of the drought reports the fact that the northwest was selling wheat here caused many of them to unload. A falling off in the export demand was another factor causing disgust to the bulls as well as piling up of stocks in the northwest. Local exporters are of the opinion that values will have to work to a lower level to interest the foreign buyers of wheat.

### War Scare Seems Over.

There has been little in the behavior of the foreign markets to suggest any uneasiness over the political situation abroad. In fact, prices at Berlin were considerably lower last week owing to realizing inspired by the more favorable outlook for many. An advance in Budapest was attributed to dry weather in Hungary and a good milling demand and, relatively higher than Berlin, though a short time ago it was considerably lower. The Liverpool market was also lower. This was due to cheaper Manitoba offerings and favorable crop advices from India, Australia and Argentina.

Many of the traders believe that the wheat market is in such a condition that it will require constant support by the bull leaders to sustain prices. There is no show of interest worthy of mention, and an attack by the bears, coupled with hedging orders from the northwest, would put the supporters to their best efforts. While it is believed that the drought and decreased spring wheat movement are strong bull factors, it is declared that they are being overworked, as the drought is by no means serious, and the domestic situation, while strong, is not sufficiently bullish to warrant the ignoring of the continued indifference displayed by the importing countries.

### Corn Eases Off.

Corn has been dull and lacking in support. Price eased off under liquidation by small holders and selling for country dealers. The trade is waiting for development in connection with the new crop movement. If the farmers sell freely, the prevailing prices and receipts indicate materiality, a decline in a result of probability but should the movement prove disappointing the market may be different.

### War Scare Seems Over.

There has been little in the behavior of the foreign markets to suggest any uneasiness over the political situation abroad. In fact, prices at Berlin were considerably lower last week owing to realizing inspired by the more favorable outlook for many. An advance in Budapest was attributed to dry weather in Hungary and a good milling demand and, relatively higher than Berlin, though a short time ago it was considerably lower. The Liverpool market was also lower. This was due to cheaper Manitoba offerings and favorable crop advices from India, Australia and Argentina.

Many of the traders believe that the wheat market is in such a condition that it will require constant support by the bull leaders to sustain prices. While it is believed that the drought and decreased spring wheat movement are strong bull factors, it is declared that they are being overworked, as the drought is by no means serious, and the domestic situation, while strong, is not sufficiently bullish to warrant the ignoring of the continued indifference displayed by the importing countries.

## You Who Spend Twice For Fuel What You Should

Don't blame the hard winters! Don't complain about the coal trust! Get right down to the subject—your heater is a coal hog. It is a fuel waster. The chimney gets the heat instead of the room. We'll save you a third or half your fuel bill this season if you will listen to reason. If it was \$30.00 last winter, how would \$15.00 sound for this year? We can save you that money with the stove we sell. That stove is the Original Cole's Hot Blast—the heating wonder. Remember, we guarantee to save a third the fuel—proper use will save at least half. And just stop to think—the amount saved in fuel will pay the cost of the stove—the stove saves its cost and over. Will we guarantee this? We will—and more. See what the makers—the Cole Manufacturing Co. of Chicago—have written us. Pretty strong from a million dollar concern selling 60,000 of this one stove a year—don't it? Read it:

"You are authorized to sell the Original Cole's Hot Blast Heater this year on the most right guarantee ever made by any stove manufacturer. Our guarantee to every customer of yours is—  
 "1.—A saving of one-third in fuel over any lower draft stove of the same size, with soft coal, slack or lignite.  
 "2.—That Cole's Hot Blast will use less hard coal for heating a given space than any base burner made with same size fire pot, hours each morning with the soft coal or hard coal put into the stove the evening before.  
 "3.—That the stove will hold fire with soft coal from Saturday night until Monday morning.  
 "4.—A uniform heat day and night with soft coal, hard coal or lignite.  
 "5.—That every stove will remain absolutely air-tight as long as used.  
 "6.—That the feed-door is and will remain smoke and dust-proof.  
 "All we ask is that the stove shall be operated according to directions and set up with a good flue."  
 (Signed) COLE MANUFACTURING CO.,  
 (Makers of the Original Patented Hot Blast Stove.)

## Cole's Hot Blast \$10 and Up.

The unequaled fuel saving, the heat radiation, the even temperature, the holding of fire, are all the result of the patented features in the construction of this remarkable stove, which cannot be used in making any other stove; and to the Patented Hot Blast Draft, which burns the waste gases in the fuel. Soft coal, as you know, is half gas. The make-up of the stove is interesting. Read:

In an ordinary stove the gas (half the heat value) arises from the coal as the coal burns and the gas goes right on up the chimney. The Hot Blast Draft on top of the fire burns the coal from the top—burns the gas. Makes the coal last twice as long.

Note this—you cannot shut off or control ordinary stoves promptly because, though you do shut the air out of the main draft, air is coming in through dozens of small cracks, giving the fire a draft which is in no way controlled. You notice this when a stove keeps on heating long after you want to shut it off.

The patented construction of the Original Hot Blast Stove enables the manufacturer to guarantee it to remain always air tight. Remember, that is part of the guarantee. So when you close the air feed you seal the stove up air tight. Thus the coal doesn't waste away—and will hold fire so well that you don't have to kindle a fire in the morning, as with other stoves, but actually sleep and eat breakfast in warm rooms, warmed by the fuel put in the night before. Lots of satisfaction, don't it? Cleanliness—economy—and a stove with looks to be proud of.

The Original Hot Blast is not a high-priced ornament, but is built for utility and heating comfort. IT IS SOLD AT \$10.00 AND UP. And there is no way in which the material used in a stove could be put together to get so much heat, wear and good looks as in this.

Let us show you Cole's Hot Blast early so you will have a full season of comfort, and begin fuel saving at once. Why not come tomorrow?

## F. N. Gardner, Jr., Co.

See the name "HOTBLAST" on the feed door of every stove. None genuine without it.

Shows Hot Blast Draft.

### COMMERCIAL CLUB.

The following communication has been sent out by the Paducah Commercial club:

To the members of the Paducah Commercial club:

At a meeting of the directors of the Commercial club held October 14 the following statement was presented by the secretary of receipts and disbursements for the year ending October 7, 1908.

We beg to call your attention to the large decrease of expense in running the club the past year, which is 50 per cent less than two years previous.

### Statement.

Disbursements:	
Stamps, stationery and printing	\$ 128.20
Old bills paid off	155.49
Rent	261.00
Clifford expenses, including secretary and stenographer	1004.79
Subscription to Farmers' union	50.00
Total	\$1097.48

The club has 122 members with uncollected dues of \$354. The club owes \$398.95 to October 1, 1908.

In order to meet the above obligations it will be necessary to collect all of the dues, which even then will be a deficit. Owing to the depressed conditions of commerce and trade the past year, very little suc-

cess has been attained in the way of adding new members to the roll, but the necessity of maintaining an organization of this kind is so apparent to all of our citizens we are going to ask that each member who receives this letter try and secure the signature of one person who is not already a member of the club, for the next six months on the enclosed membership blank and mail same to the secretary.

The club will have an open meeting of all members and citizens of Paducah next Tuesday night, October 20, at its headquarters, corner Sixth and Broadway, at 7:30 o'clock sharp, and you are urged to attend, and if you cannot, be kind enough to send a representative, as matters of vital importance concerning the future welfare of Paducah will be discussed at this meeting. The club has several propositions from large industries with a view of locating in this city, which will be brought before the citizens of Paducah and it behooves every citizen of Paducah to attend this meeting in order that they may know what the club has done and is doing for Paducah and her welfare.

The meeting will be called to order at 7:30 o'clock sharp in the Commercial club rooms.

Respectfully,  
 EARL PALMER,  
 President,  
 S. A. FOWLER,  
 Secretary.

It is easy to prevent failure; all one has to do is to refrain from trying.

# The Call of Nature

When Nature is abused she first calls lightly and then in trumpet tones to the thoughtful man to "get right."

A Slight "touch of indigestion," feeling "a little indisposed," "not so well," etc., are the first whisperings of trouble—the warnings.

One can then turn to

## Grape-Nuts

and be sure of good results. It is Nature's food improved. Worn out tissues are renewed, weakened digestive organs are strengthened. Good health is quickly won and won. Coupled with these certain good results the pleasure of eating Grape-Nuts is a pleasure-plus.

"There's a Reason."

Little Creek, Mich., U. S. A.

### NAME NATURE HINTS

When the Food is Not Sated.

When nature gives her signal that something is wrong it is generally with the food; the old name is always faithful and one should act at once.

To put off the change is to risk that which may be irreparable. An Arizona man says:

"For years I could not safely eat any breakfast. I tried all kinds of breakfast foods, but they were all soft, starchy messes, which gave me distressing headaches. I drank strong coffee, tea, which appeared to benefit me at the time, but added to the headaches afterwards. Toast and coffee were no better, for I found the toast very constipating.

"A friend persuaded me to quit the old coffee and the starchy breakfast foods, and use Postum and Grape-Nuts instead. I shall never regret taking his advice. I began using them three months ago.

"The change they have worked in me is wonderful. I now have no more of the distressing sensations in my stomach after eating, and I never have any headaches. I have gained 12 pounds in weight and feel better in every way. Grape-Nuts make a delicious as well as a nutritious dish, and I find that Postum is easily digested and never produces dyspepsia symptoms."

"There's a Reason."  
 On the little book, "The Road to Wellville," in packages.

Do not let any one tell you that something else is just as good as DeWitt's Kidney and Bladder Pills because there isn't anything just as good. Sold by all druggists.

The Burma petroleum wells in India yielded in 1907 \$3,000,000 worth of oil.

# S.S.S. CURES OLD SORES

No old sore can heal until the cause which produces it has been removed. External applications of salves, washes, lotions, etc., may reduce the inflammation and assist in keeping the place clean, but cannot cure the trouble because they do not reach its source. Old sores exist because the blood is infected with impurities and poisons which are constantly being discharged into the place. The nerves, tissues and fibres of the flesh are kept in a state of irritation and disease by being daily fed with the germ-laden matter through the circulation, making it impossible for the sore to heal. S. S. S. cures chronic sores by its purifying action on the blood. It goes down into the circulation, and removes the poison-producing germs, impurities and morbid matters which are responsible for the failure of the place to heal. S. S. S. makes the blood pure, fresh and healthy; then as new, rich blood is carried to the spot the healing process begins, all discharge ceases, the inflammation leaves, new tissue begins to form, the place fills in with firm, healthy flesh, and soon the sore is permanently cured. S. S. S. is purely vegetable, the safest and best blood purifier for young or old. Look on Sores and Ulcers and any medical advice free to all who write.

## STANDARD TANKS GET NEW REPRIEVE

Council Disposes of Ordinance During Its Existence.

Referred to Committee During Indefinite Pendency of Suit in Circuit Court—Other Matters.

### BOARD OF COMMISSIONERS MEET

A new general council will be installed before the Standard Oil tanks will be disturbed by ordinance. The board of commissioners took steps last night to defer action until January, at least, by considering the measure to the ordinance committee until such a time as an appeal of the prosecution under the present ordinance is decided. The appeal should have been heard at this term of circuit court, but was not. Now it will go over until January. It may be continued then. If not, it can go on to the court of appeals, and in the meantime Paducah will be at the mercy of another fire caused by the plant being lighted from a locomotive.

The Standard Oil ordinance was referred back to the ordinance committee on motion of Councilman Young at last night's council meeting. The commission decided to defer action on the ordinance until after the case against the Standard Oil company now in the courts is decided, in January, maybe.

There was no new business before the board last night. Councilman Lackey acted as president pro tem in the absence of President Lindsey. Mr. Eli Boone was present and asked the board to refer the assessment of the Woman's club building to the board of supervisors, as the club thought the property was assessed too much. The request was granted.

The report of the finance committee for the first half of the month of October was ordered read. The accounts amounted to \$1,212.39.

A communication from the board of police works and one from the mayor, asking the council not to pass any more ordinances for street improvements were received and filed.

The motion of the aldermen was concurred in, referring the question of voting on the bond issue for the purchase of the water plant for the city to the ordinance and the light and water committees.

Messrs. W. N. Leaven, Sr., and W. N. Leaven, Jr., asked the board to grant them two river frontages at the foot of Elizabeth street for a period of 20 years, so that they can run a ferryboat to Lexington Point, in Lexington county. Their request was referred to the street committee.

The board concurred in the action of the sewer, sanitary and hospital committee in ordering the sewer repaired at First and Washington streets.

Mr. Fred Hendon was granted a deed to lot 30, block 42, in Oak Grove cemetery.

The city auditor was instructed to have Mr. A. S. Elliott move his property off the sidewalk at Ninth and Ohio streets, concerning the action of the aldermen.

On December 2 last year the Paducah Southern Electric company was granted a franchise to put down tracks on the streets of this city. The work was to begin in one year, but on account of the financial situation the company asks for an extension of one year. This question was referred to the ordinance committee.

Those present last night were Councilmen Lackey, Bowser, Duval, Cornelson, Foreman, Ford, Krentzer, Mayor Van Meter, Wilson and Young.

### CIVIL SERVICE

Examinations Will Be Held Soon For Lucrative Positions.

Competitive examinations will be held as indicated below. If anyone desires to apply for any of these, the proper blanks will be sent upon request.

## CALLOWAY AWAKE TO THE SITUATION

**Primary Battle is Waged Most Vigorously.**

Night Riders and Law and Order Element Contest for Control of Democracy.

### INDEPENDENT TICKET, MAYBE

Murray, Ky., Oct. 20.—(Special.)—Night rider issues are paramount in the campaign for county officers in this county and some warm meetings are being held, where the candidates for the different offices are speaking to large crowds. Supporters of law and order and the night riders and their sympathizers are centering their strength on one particular candidate in each race, choosing the strongest candidate, regardless of previous political alignment or personal favors. So evenly divided is public sentiment on the question, there will be a clash of forces in most of the races, and from present indications the night riders will dominate a part of their ticket, and the better element a portion of their ticket.

For county judge the supporters of the present county administration, which has made strong efforts to put down night riders are supporting E. P. Phillips, an attorney of Murray. Mr. Phillips' only opponent is D. J. Alexander and the outcome of the race is in doubt.

For county clerk, John N. Williams, the present incumbent, who has never allied himself with any political faction and is known to be a clean man, will get the support of the law and order contingent. His strongest opponent is young Reuben Fairwell, who cannot himself be charged with being a night rider sympathizer. Mr. Williams is a one-armed ex-Confederate. Fairwell is also one-armed but a very young man.

O. J. Jennings, editor of the Murray Ledger, who has figured largely in the night rider discussions and has severely criticized Judge Wells for his efforts to put down lawlessness, is also a candidate for county clerk, but seems to have been deserted by the element he so ardently supported through the columns of his paper.

For county attorney, N. B. Barnett, who vigorously prosecuted the night riders, is opposed by F. E. Aree, who was an attorney for the defense. Many predict Aree's election, though Barnett's supporters have not lost hope.

Miss Lucile Grogan, a handsome young lady, seems to have her race for county school superintendent won over L. A. L. Langston, present superintendent.

The real fight, however, is over the sheriff's place, with ex-Sheriff Walter Holland and Magistrate W. A. Patterson the contending candidates. N. L. Christian and Clint Drinkard will also make favorable showings. Mr. Holland, with his brother, John Holland, are the men who worked up the best part of the evidence against the indicted night riders, and naturally Holland is bitterly opposed by that element. Mr. Holland has for

ALEX KIRKLAND,  
Auditor.

### HOME CURE FOR ECZEMA

Oil of Wintergreen, Thymol, Glycerine, Etc., Used as Simple Wash.

It really seems strange that so many people suffer year in and year out with eczema, when it is now no longer a secret that oil of wintergreen mixed with thymol, glycerine, etc., makes a wash that is bound to cure.

Old, obstinate cases. It is true, cannot be cured in a few days, but there is absolutely no sufferer from eczema who ever used this simple wash and did not find immediately that wonderfully soothing, calm, cool sensation that comes when the itch is taken away. Instantly upon applying a few drops of the wash the remedy takes effect, the itch is allayed. There is no need of experiment—the patient knows at once.

Instead of trying to compound the oil of wintergreen, thymol, glycerine, etc., in the most proportions ourselves we are using a prescription which is universally found the most effective. It is known as the D. D. D. Prescription or Oil of Wintergreen Compound. It is made by the D. D. D. Co. of Chicago, and our long experience with this remedy has given us great confidence in its merits. It is a

confidence of other good men who have opposed the night riders. So much feeling has already been engendered over the different races that there will be a chance for an independent ticket to win, especially in nominating a part of the ticket. Republicans of the county have to a man stood by Judge Wells in his fight to suppress lawlessness and they stand ready to throw their strength as a whole to elect a set of county officers that will carry out the present policies of the county administration.

The coming of Governor Wilson to the county Monday greatly pleases the law and order folk irrespective of party affiliation and it is believed great good will result from his visit and speech here. A great crowd will be here to hear him.

**ROGERS' LIVERWORT**

### SUNDAY SCHOOL

Association Formed Among Baptist Churches.

In connection with the West Union Baptist association, a Baptist Sunday School association has been organized to open new schools and improve the present schools. Officers were elected as follows: President, Prof. A. M. Rouse; vice-president, John Hall, of Boone; treasurer, Ed Ransom, of Blandville; secretary, the Rev. J. W. Hunter, of Paducah. The first meet-

## La France Shoe for Women

There is a La France shoe at this store that will fit your foot—perfect. It means something in La France shoes that the wearers of other shoes do not clearly comprehend. It means more than a shoe that fits fairly comfortably and looks well. It means a shoe that adapts itself to the shape, lines and curves of the foot—a shoe that is close without being uncomfortable. The picture at the bottom illustrates one particular kind of La France shoe that may interest you. It is the remarkable Flexible Welt, the most elastic and comfortable shoe model ever offered by this or any other shoe store. This flexibility does not detract from the wearing qualities of the shoe, but it does make it the most easy of all shoes, particularly when the wearer is standing or walking.

HARBOUR'S DEPARTMENT STORE,  
North Third Street Just Off Broadway.

Remember that the Flexible Welt is one special La France model. You will find the La France shoe in all styles and models.

ing of the union will be held November 26 and 27.

**PILES! PILES! PILES!**  
Williams' Indian Pile Ointment will cure Blind, Bleeding and Itching Piles. It absorbs the tumors, allays itching at once, acts as a poultice, gives instant relief. Williams' Indian Pile Ointment is prepared for Piles and Itching of the private parts. Sold by druggists, mail 50c and \$1.00. Williams' M.T.G. Co., Props., Cleveland, O.

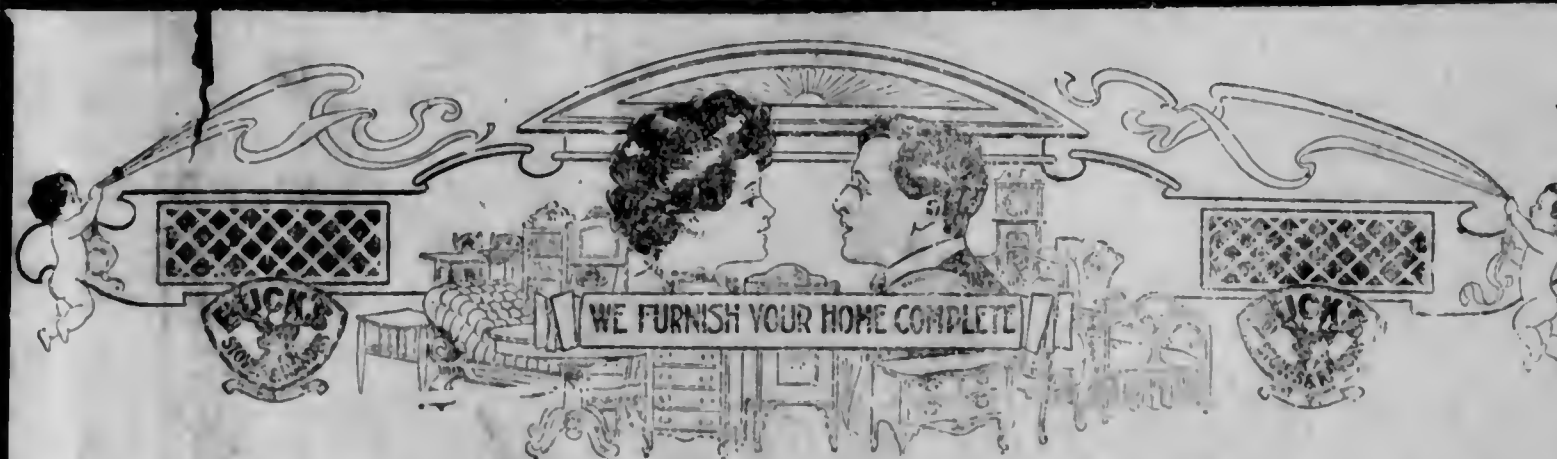

### AGED MAN ENJOYS COMING TO CITY TO MEET FRIENDS.

Mr. William Smith, 85 years old, of Grahamville, was an interesting caller at the sheriff's office this morning, having come to town to visit his son, John D. Smith. Mr. Smith told many reminiscences of the early days of Paducah. He moved to McCracken

county from Virginia in 1825 and the first visit he remembers of making to Paducah was a few years later. There were only one or two small stores here, standing near what is now the Fowler-Cumhaugh boat store. One of them, run by a man named Flournoy, was a small log two-room affair, the front room being used as a store room. Mr. Smith is remarkably well preserved for one of his age. He likes to come to the city and meet his acquaintances, with whom he is a great favorite.

Cassius, the well known remedy for babies and children, will quiet the little ones in a short time. The ingredients are printed on the bottle. Contains no opiates. Sold by all druggists.

A soft answer may turn away wrath but it won't stop a bill collector.

## TENNESSEE AND KENTUCKY DOUBT

No One Knows What Result Will be in Election.

Enquirer's Louisville Correspondent Speaks of Big Silent Vote This Year.

### HEAVY SLUMP IN TENNESSEE.

That silent vote is mystifying Democrats where they recognize its existence, and it is going to cut a big figure in the result in Kentucky November 3. The Princeton fellow, who, when asked: "What are you going to vote?" replied: "The Australian ballot," expressing the sentiment of the "silent brigade" in the black patch, which is at variance with the "silent brigade" which figured in the testimony of witnesses in the Hollowell damage suits. The few Republicans, who sympathize with the night riders, are openly avowing their support of the Democratic ticket; but there is an ominous number who won't tell how they are going to vote. The Republican politicians think they know how these silent men are going to vote.

In spite of the Democratic county primaries election day in every county in the First district, there will be a big slump, not so big as the one when Willson was elected; but just as effective, because it will be helped along by that silent vote. Taft will get more Democratic votes than Willson did, but there will not be quite so many Democrats stay at home. The primary is bringing them out. Some of them will endorse Willson by a Republican vote, and then go

### THE HAIR BRUSH.

Prevents Dandruff, Which Causes Falling Hair and Fluffy Baldness.

Prof. Unau, Hamburg, Germany, European authority on skin diseases, says that dandruff is as contagious as any other malevolent disease, and that one common source of the spread of dandruff is the use of the same hair brush by different persons. The way to avoid catching dandruff or any other disease from another's brush, is to insist on the use of Newbro's Herpicide. It not only kills the dandruff germ, but it is also an antiseptic that will prevent the catching of any disease whatever through contagion of another's brush. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Two sizes 50c and \$1.00.

into the Democratic primary and cast a vote against the night rider candidates. This slump in western Kentucky, coupled with the advantage in other sections should give the state to Taft.

Men, who make trips into the country daily, especially rural mail carriers, bring back word that the farmers are not going to vote this year in this section.

### In Tennessee:

Nearly the same condition applies in Tennessee, and while it may seem unnecessary to claim Kentucky and Tennessee for the Republican national ticket under any circumstances, the situation in Tennessee is problematic. There is no primary in West Tennessee and Middle Tennessee to bring out the vote, and it is not coming out. They haven't yet gotten over the Carnack-Patterson fight. Carnack was for state-wide prohibition and so wasn't beaten badly. The Memphis liquor interests backed Patterson and Carnack's papers that supported him are still hostile to Patterson. The Republican candidate is the strongest man in the party, running on a state-wide platform with a noted party behind him. Taft's visit through East Tennessee has aroused the Republican strongholds, and even Chattanooga probably will be carried by him. If the

Democrats of Middle and West Tennessee stay at home, and the Republicans of East Tennessee come out, considering the number of Democrats authentically reported here to be Taft men the result in Tennessee is doubtful as to the national and state election.

It should be added that the influence of Luke E. Wright's support of Taft will have great weight in Memphis and win many votes to the sound money, protective candidate.

### The Enquirer's View.

The Louisville correspondent of the Cincinnati Enquirer says of Kentucky: Although Kentucky nominally is a safely Democratic state, the Republicans this year are unwilling to join with the artists who are busily engaged in drawing political maps of the United States. Kentucky Republicans do not agree altogether with the color scheme employed by these artists. One map maker will designate the safely Democratic states with huge globes of blue ink, while others will indicate the states that Bryan will carry by big splashes of red ink and so on, using all colors of the rainbow. The map makers never dream and apparently the map makers haven't the slightest doubt about how Kentucky will go.

At Republican state headquarters here, Chairman R. H. Winn, Congressman H. C. Edwards and Secretary A. S. Bennett say that if the map makers were conversant with the actual conditions in Kentucky they would not put the ink on quite so thick in showing how Kentucky will go. These politicians say that if the blue is to represent the Democratic states, the map maker's brush should be drawn very lightly across Kentucky to indicate that although Kentucky is a Democratic state, they say it is very likely to go Republican this fall. This is what they claim to be their sober, calm and deliberate judgment and they declare that they base it on the reports from the various counties, the crowds which the Republican speakers have been addressing and the argument that there is no perceptible change in conditions since the time that Willson was elected governor by a majority of 18,000. When told that Willson was elected by the stay-at-home Democratic vote, they contend that there will be a stay-at-home Democratic vote this year and that there is nearly sprinkled throughout the Democratic rank and file.

This is simply the view of the situation as taken by the Republicans, but they are in such cold, hard earnest that there is little doubt but that they believe sincerely what they say. They base their hopes for victory on the ground that Willson's administration of state affairs has been approved by the people; that Judge Taft's candidacy in Kentucky is popular, and that the Republicans will reap the benefit of what is becoming known as the "silent vote" in the tobacco districts. In all the tobacco-growing counties there are a number of voters who refuse to say how they intend to cast their ballots in November. The Republicans declare that nine out of ten of these voters are men who have been prevented from growing tobacco by the night riders. The Republicans declare that for the very reason that they decline to say how they will vote is proof conclusive that they intend to vote for the Republicans, for otherwise they would have no hesitancy in saying that they were in thorough accord with the organizations. The Republicans concede that there are

many of their own voters who, by reason of the tobacco troubles, will vote the Democratic ticket, but they declare that the Republican deserters are more than outnumbered by the acquiescences from the Democratic camp. The Republicans say, furthermore, that Governor Willson's reception in the "black patch" confirmed their view of this silent vote and has made them more confident of bringing it into line for Taft. Furthermore, they assert that they have the best organization that they have ever had, and that the organization for Taft in Kentucky is much stronger than the organization for Willson.

At state headquarters the Republicans claim to be much elated over Judge W. H. Taft's sailing through Kentucky, and they say he did much good. Before coming to the state Judge Taft announced that his purpose in visiting Kentucky, Tennessee and Maryland was to see much with a view of carrying out of these states as it was with a view of convincing the voters that they were an asset of one political party and would vote for that party regardless of what the issues were. As a matter of fact, Judge Taft has a well-defined belief that he will carry the state, and his purpose in coming to Kentucky was to strengthen his belief. In fact, it is known that he and his friends believe that he will carry the state better chance to carry Kentucky than he has a number of years that are conceded to be safely in the Republican column. It was enough the desire of Judge Taft to make the sailing through the state what he did last Thursday as it was the desire of the Kentucky Republicans to have him and from the fact he has believed that Kentucky was not safely Democratic by any means.

The reasons given by the Republicans for carrying Kentucky are well known to the Democrats, and they boot at the idea of even a bare possibility of the Grass state switching its electoral vote over into the Taft column. Democrats answer the Republican contention by saying that Bryan has always been popular in Kentucky, and that he has more followers in this state now than ever before. The Democrats concede that there is a silent vote in the tobacco districts, but they say that the tobacco question is in no sense an issue in the national election, and that where ever the voters consider it an issue the Democrats will get more votes in the break-away from party lines than the Republicans will get. They also say that if the tobacco troubles are to cut a figure in the election, that Mr. Willson's alleged hostility to the tobacco growers and their interests has

aroused the growers to an intense feeling that they will express at the polls.

DeWitt's Carbollized Witch Hazel Salve is the best salve for piles. He sure you get DeWitt's. Sold by all druggists.

Theoretically girls do not believe in flirting—but practically they do.

## DIRECTORIE CORSET MODEL

Never was the right corset so essential to the woman or Maid of Fashion—for the lady who would achieve style or anything near it. With the clinging directorie styles the wrong corset is fatal. The right one luck, but of thought have dictated to the in return the tailors helplessly dependent the correct corset for thing in style is pos fully graceful and easily obtained if you to you by an expert corsets for the hipless Bon Ton Corsets at LaVictory Corsets at Royal Worcester \$2.50 the pair.

is not a matter of and skill. Designers corset makers—and and dress-makers are upon them. With a foundation, every- sible. Those beauti- slender lines can be wear a corset fitted corsetiere. The best figure, masterly pro- corsetieres are the \$3 to \$12 the pair. \$2.50 to \$7.50 pair. Corsets at \$1.00 to

All three of which are sold exclusively by this store, and every one of which are scientifically fitted by an expert. No charges for these fitting services of corsets which sell for \$3.00 and above. Consult our expert before buying here or elsewhere.

### May Dredge Lower River

E. J. Carpenter, chief assistant engineer to Col. W. T. Russell, of the corps of United States engineers in charge of the improvement of the Ohio river, is in the city today. Mr. Carpenter is making an effort to get two government dredges now between Paducah and Cairo to remove bars from the channel of the river.

The Ohio river between Paducah and Cairo is so low that the bars prove the lightest steamboats from running. The efforts of Mr. Carpenter were brought about in a way by the work of the Paducah delegates to the deep waterway convention.
